ST. JOHN'S COLLEGE,

COLLEGEVILLE P. O., STEARNS COUNTY, MINN.

Bordering on one of Minnesota's prettiest lakes, and near the lovely Watab, surrounded by a picturesque forest, a little over one mile from Collegeville—the nearest railroad station—stands St. John's College, an institution favorably known to the greater and better portion of our citizens for these many years.

The St. Paul, Minneapolis and Manitoba Railroad passes through the College lands. A large and substantial building 315 feet front, a valuable library, a flourishing college, a thriving community, show that the Benedictine Order, established A.D. 525, is, as of yore, fulfilling its august mission. As early as 1493, thirteen members of this order, under their leader, Dom Bernardo Boil, landed with Columbus, on Montserrat, one of the West India Islands, to commence in the New World the great work which the order had begun and nobly done in the Old, the education and civilization of peoples and nations.

In 1846, the Rt. Rev. Abbot Boniface Wimmer, with a second colony of Benedictines crossed the Atlantic, settled in Pennsylvania, and, with untiring zeal, soon laid the foundation for a College whose fame has grown with its years.

The pioneer Benedictines of Minnesota, disciples of the above named Rt. Rev. Abbot, left the Key Stone State at the invitation of Mgr. Jos. Cretin, late Bishop of St. Paul, and arrived in Minnesota, May 10, 1856.

In the following year they entered upon their work of education in consideration of which the Territory (now State) of Minnesota granted them (March 6, 1857,) a charter constituting the "Order of St. Benedict" a body corporate and politic. From that date St. John's has been on its forward march, true to the poet's words:

"Large streams from little fountains flow,
Tall oaks from little acorns grow"

Very Rev. Demetrius Marogna, first President of St. John's, Rev. Alexius Roetzer, one of its first professors, Rev'ds Othmar Wirz and Wolfgang Northman, also Presidents of this institution, have passed to their eternal reward; they have, however, left behind them footprints in the sands of time.

In 1867, Rt. Rev. Abbot R. Seidenbusch, now Bishop of St. Cloud, came

to Minnesota and earnestly labored to advance the interests of the College. He was succeeded by the Rt. Rev. Abbot Alexius Edelbrock, who, following the example of his predecessors, is exerting his every energy to place the institution among the foremost of the country.

The College has an efficient body of professors; conducts a Commercial Department, which is fully up to the times and independent of the other college course; possesses a valuable apparatus and a museum with some rare collections.

It is, then, evident that St. John's has passed the days of its infancy, and that it is rapidly approaching a bright and glorious future.

Its Alumni are to be found everywhere; they occupy noble and exalted positions; they look back with pride to their Alma Mater and bid her "God speed."

The institution, by an act of the Legislature, (approved March 5, 1869,) is empowered to confer all university degrees.

Besides conducting the College, the Fathers of St. John's Abbey labor to advance the interests of religion, and keep divine faith aglow in the hearts of a population sparsedly settled over a large extent of country.

The annexed catalogue of the priests of the order shows the number of places attended from the Abbey, and any one acquainted with the country can see at a glance the extent of territory over which the labors of these priests extend.

The latest missionary work in which the Fathers engaged and a very important one, is the mission to the Chippewa Indians at White Earth and surrounding settlements. Although this mission has not been long operated by the Benedictines, yet their success has elicited from the then U. S. Indian Agent, Hon. Major C. A. Ruffee, the following testimonial:

"By means of its school and church the Order of St. Benedict has thus "far exercised a very beneficial influence on the Chippewa Indians, and it is "worthy of the respect and the good will of all classes of society on the said "Reservation. As the said Order has never, to the best of my knowledge, "received any aid from the government, and as it is at present constructing "buildings of great value toward civilizing the Indians located on this "Reservation, I deem it my duty to encourage the said Order of St. Benedict "in its noble work and exalted mission."

The above extract speaks of the work of the Abbey in but one place. Something similar might truthfully be said of the labors of the priests of the Abbey in many places. Each year brings its quota of improvements in their mission in the shape of new churches erected, old ones improved; new schools opened, or old ones encouraged and aided to advance.

As in days of yore, in the countries of the old world religion and science were cultivated in the populace by the Sons of St. Benedict, so is it now in our young Northwest:—Religion and science are extended over the country through the zealous labors of the same Sons of St. Benedict and the generous assistance of a grateful and appreciative people.

This year's "Annual" exhibits a decided advance in the scientific standing of the pupils of the College; a list of the improvements effected in the various missions, were it even condensed, would be too lengthy for these pages.

We annex merely the following:

Experience has taught me that I enjoyed a great privilege, when able to avail myself of the advantages which the College offers. I can safely say that no young man can desire better educational advantages, a more delightful abode, or more solicitous care, than are to be had at St. John's College. From N. B. HARWOOD & CO., Minneapolis, Minn.

You may regard me as in full sympathy with the interests and purposes of the Institution over which you preside. St. John's College is a home Institution, and should receive the liberal support of the people of Northern Minnesota. From HON. JOSEPH CAPSER, Sauk Centre, Minn.

From MR. J. H. M. WIGMAN, firm of Hudd & Wigman, Attorneys and Counsellors at Law, Green Bay, Wis

I feel very well satisfied with the time my son spent at your College, and if he had to return to school again I certainly would not send him elsewhere; St. John's would be my first choice.

From MR. WM. BUTLER, Little Falls, Minn.

I thank you and your professors for the kindness shown to and the interest taken in my son I feel very sorry that his health does not permit me to send him back, for I think he has done so well for the time. I assure you he speaks highly of your College and of your professors, and he deeply regrets his inability to return to St. John's

From HON. C F. MACDONALD, St Cloud, Minn.

From my own knowledge, and also from what my son has said, I feel that I am under obligations to yourself and to the professors of St. John's for kindness shown my son. In the future, when a few years shall be added to his age, he will again return to St John's.

From IGNATIUS FAZENDIN, Stillwater, Minn.

I believe that I never did a better act than sending my son to your esteemed school. I am well pleased with the progress he made I will always consider the money paid for him well expended, and I will recommend your College to all my friends.

St. John's Commercial College.

The growing importance of this section of our State presses young men into active business life and they must have ample facilities to obtain a thorough commercial education in the shortest time possible. The Trustees are confident that they have provided amply for those who feel disposed to embrace the opportunities they offer, which are the following:

The accommodations are comfortable and sufficient for any number of pupils. The principal is a practical and experienced business man, a graduate of one of our best commercial colleges, a splendid penman. The charges are only sufficient to cover current expenses. Instructions are given to each individual pupil, excepting lectures in commercial law, which are given in the hall of the Institution. Pupils are admitted at any time during the collegiate year, provided they have a sufficient knowledge of commercial arithmetic. Examinations are held weekly, and each pupil can advance as rapidly as his attainments warrant. An Actual Business Department, an "Emporium" and a "Bank" are operated that those who have completed the theoretical may acquire knowledge of practical business.

Besides the above named, St. John's Commercial College presents another weighty inducement. Many desire to perfect some cognate studies while pursuing the commercial course; this they can do at St. John's. In the Classical College, situate in the same building, instructions are given in Penmanship, Commercial Arithmetic and English Belles Lettres, before and after the hours of study in the Commercial College; thus giving the pupils an opportunity to attend these instruction without interfering with their other commercial studies.

The Trustees, satisfied that the facilities they offer are unsurpassed, respectfully invite business men and those intending to commence a business career to consider the opportunities which St. John's Commercial College presents; they purpose to prepare competent business men as quickly and as cheaply as it can be done.

SCHOLARSHIPS.

By paying the tuition fee, thirty dollars, a scholarship is procured, which entitles the holder to an attendance in the classes of the Commercial College for ten months.

TELEGRAPHY.

If not strictly a part of a business education, yet a practical knowledge of Telegraphy secures an honorable position to many a young man; therefore, a thorough theoretical and practical knowledge of the art will be imparted by an experienced operator, with instruments set up in the College, for which instruction an extra charge, $4 per month, will be made.

GENERAL REGULATIONS.

The academic year of two sessions commences on the first Wednesday of September and terminates in the last week of June with the exhibition customary on "Commencement Day."

Though students are admitted at any time, he consults his own interest who is present at the beginning, will have the benefit of accurate examination, precise classification, and a fair start with his classfellows.

Pupils who enter after the end of the first month, or who absent themselves for any notable time during the year, or who withdraw before the end of the year, have no claim to class honors or distinctions.

Applicants for admission who have not attended another College, if not personally known to some member of the faculty, must furnish a character certificate from some responsible person; those who have attended another College must produce papers showing their standing in the College they last attended.

After admission a student is examined and classed according to his attainments.

According to age or requirements students are ranged into two departments and are in charge of two prefects.

Classes are examined three times a year; in the study hall the result is read in the presence of the students and faculty assembled; a bulletin reporting the health, conduct and progress of each pupil is then forwarded to his parents or guardians.

REQUISITES FOR DEGREES.

Candidates for degrees must make a written application to the President of the College. In this application they must state the degree to which they aspire, and the subjects upon which they are prepared to be examined. After the approval of such application its terms remain unaltered.

BACHELOR OF ARTS.

It is required of a candidate for the degree of Bachelor of Arts:

1st. To have been, at least the preceding year, a student of the institution, and to have completed the last year's course.

2d. To pass a satisfactory examination upon two classical authors, and upon any three subjects selected from the classical course.

3d. To write a thesis on a classical subject.

BACHELOR OF PHILOSOPHY.

At the termination of the course of philosophy the degree of Bachelor of Philosophy can be obtained by those who pass an examination on the matter treated in the course, and who present an original and creditable paper on a given subject.

DEGREE OF MASTER OF ARTS

Having passed two years in literary or scientific pursuits, he who obtained from the institution the degree of Bachelor of Arts, can secure the degree of Master of Arts by applying to the President of the College.

TERMS.

Cash for five months in advance is strictly demanded.

As the College is not endowed, it is entirely dependent for its support on the fees paid for board and tuition, which are as follows:

IN CLASSICAL COURSE.

Entrance Fee,		$ 5.00

ENTRANCE FEE, BOARD AND TUITION, . . .	per anuum,	$150.00

From the terms as above laid down sad experience has taught us not to deviate in the least. We will insist on pre-payment in every instance, and those who are not willing to conform to this rule need not apply for admission.

Bills are sent at the beginning of every session, at the same time a draft at ten days' sight is issued.

No student can leave the College before his accounts are paid.

Students will not be admitted for any period shorter than one session. Except in case of serious and protracted illness, or of dismissal, no reduction will be made, and no money refunded on account of withdrawal before the end of the session.

Pupils entering the College about the middle of a month are always charged from the first day of that month. Such tardy arrivals must blame themselves for the additional charges. Students who arrive when classes have opened are a source of special trouble to the officers and professors of the College.

The locality being healthy, and sickness very rare among the students, occasional medical attendance will be at the expense of those who require it.

The only musical instrument furnished by the College is the piano.

Books, stationery, medicine, music and drawing materials can be procured at the institution, if a sum equivalent to the probable cost of such articles is deposited with the Treasurer.

Each student must be provided with four suits, different according to the seasons, six changes of underclothing, one pair of swimming drawers, six pocket handkerchiefs, six towels, two pairs of shoes or boots, two pairs of slippers, a clothes brush, blacking brushes, toilet materials, etc.

No advance will be made by the Institution for clothing, pocket-money or other expenses of the students. Parents who wish the College to procure any articles for their sons are required to deposit an amount equivalent to the probable cost of such articles.

St. Benedict's Academy,

St. Joseph, Stearns Co., Minn.

THIS institution, under the charge of the Benedictine Sisters, is beautifully situated in a remarkably healthy locality. Here facilities are afforded to young ladies for acquiring proficiency in the branches that constitute an education, at the same time solid and refined.

The course of instruction comprises Orthography, Reading, Penmanship, Grammar, Rhetoric, English Composition, Literature, Ancient, Modern and Physical Geography, Geology, Sacred, Profane and Church History, Book-keeping, Mythology, Physics, Physiology, Anatomy, Chemistry, Astronomy, Botany, French and German Languages, Vocal and Instrumental Music, Drawing and Painting, Plain and Ornamental Needlework, etc.

The government is mild, but firm, and the greatest attention is paid to the moral and polite Deportment of the pupils. No undue influence will be

exercised over the religious principles of non-Catholic pupils, but for the maintenance of good order, all will be required to attend the exercises of Divine Worship prescribed for the Academy.

The Scholastic year comprises two sessions of five months each, commencing respectively, on the 1st Monday of September and the 1st of February. Every pupil is required, at her entrance, to undergo an examination, after which she is classed according to her abilities and previous attainments. Examinations of classes are made at the close of each session, and bulletins transmitted, informing paren s and guardians of the health, application, proficiency and conduct of their children or wards. The scholastic year will close about the last Tuesday in June, with a distribution of Premiums, at which parents and guardians are requested to attend.

6 pair of woolen hose,

All articles of clothing should be marked in full. No uniform is required for school days. For winter, dresses of woollen material are preferable (waterproof). Besides a plain black dress, each pupil should be supplied with a hat and a cloak for winter wear, and for summer, a hat and sack (all black), also with a white lawn or swiss dress, 1 blue veil and 1 black veil. The skirts should be of colored material.

Pocket money and postage stamps are to be entrusted to the Directress. No advance in money will be made for any purpose unless at the express wish of the parents or guardians. All correspondence of young ladies will be subject to inspection. To avoid frequent interruption of the classes, the reception of parents, friends or visitors, properly introduced, is restricted to Thursday afternoon, from 1 to 4 o'clock.
